PROFILE

Creative web developer with 3 years of experience building websites that look premium and turn visitors into customers. I specialise in scroll-driven animation, interactive 3D (Three.js) and e-commerce, and I take projects from idea to a fast, mobile-ready launch. 48+ websites delivered for small businesses, from local service companies to luxury retail brands.

EXPERIENCE

Founder & Lead Web Developer, Plastrix Studio

2023 – Present · Remote

- Designed and built 48+ websites for small businesses in India and abroad.
- Built luxury e-commerce stores with product pages, cart, checkout and payment flows.
- Created cinematic scroll-animated and 3D product websites using Three.js and custom animation.
- Set up AI WhatsApp assistants (n8n + WhatsApp Cloud API) for customer replies and bookings.
- Ran Facebook and Instagram ad campaigns for client businesses.

SELECTED WORK

Wanderly: scroll-driven 3D travel site. An animated character walks through destinations as the user scrolls, followed by packages, reviews and a booking form.
jonnyraj123.github.io/Propnest/demos/wanderly

Luxury e-commerce store (shawl brand). A cinematic hero video, 3D product carousel, product pages, cart, checkout and thank-you flow.

Local-service website set (US). Conversion-focused sites for electricians and plumbers with click-to-call and mobile-first layouts.
jonnyraj123.github.io/Propnest/demos/cannon-electric

3D product sites (NOIR perfume, ORBIT ring). Real-time 3D product pages built in Three.js.
