Joni Raj Mollick

Creative Web Developer · Animated & 3D Websites · E-commerce

Kolkata, India (Remote, US time-zone overlap) · hello@plastrixstudio.com · plastrixstudio.com · linkedin.com/in/joni-raj-mollick-500bb2444

SUMMARY

Creative web developer with 3 years of experience building fast, conversion-focused websites for small businesses and brands. I specialize in scroll-driven animation, interactive 3D (Three.js/WebGL) and e-commerce, and I take projects from concept to launch with clear daily communication. 48+ websites delivered.

SKILLS

Front-end	HTML5, CSS3, JavaScript (ES6+), responsive & mobile-first design
Animation & 3D	Three.js, WebGL, GSAP / ScrollTrigger, scroll storytelling, video & canvas effects
Platforms	WordPress, WooCommerce, GitHub, Netlify
Other	AI chat agents (n8n, WhatsApp Cloud API), Meta Ads, AI image & video workflows

EXPERIENCE

Founder & Lead Web Developer, Plastrix Studio **Jan 2023 – Present**

Remote · Web design & development studio

- Designed and built 48+ websites for small businesses in India and abroad, from local service companies to luxury retail brands.
- Built e-commerce stores with product pages, cart, checkout and payment flows (WordPress/WooCommerce and custom builds).
- Created cinematic scroll-animated and interactive 3D product websites using Three.js and GSAP.
- Set up AI chat assistants (n8n + WhatsApp Cloud API) that answer customer questions and book appointments 24/7.
- Managed Facebook and Instagram ad campaigns for client businesses.

SELECTED PROJECTS

Wanderly: scroll-driven 3D travel website. An animated character walks through destinations as the user scrolls, followed by tour packages, reviews and a booking form. jonnyraj123.github.io/Propnest/demos/wanderly

Luxury e-commerce store (Kashmiri shawl brand). Cinematic video hero, 3D product carousel, product pages, cart, checkout and order confirmation.

3D product pages (NOIR perfume, ORBIT smart ring). Real-time 3D product showcases built in Three.js.

Local service websites (US electricians & plumbers). Mobile-first, click-to-call sites designed to turn visitors into calls.

AVAILABILITY
